

X-TN MACHINE

R & B Machining Inc., located in Tipp City and Wilmington, Ohio has been in business since 1985. We pride ourselves on our commitment to quality, response, delivery, and most of all customer satisfaction. Our success is based on delivering precision tooling on time, and competitively priced. R & B Machining Inc. now offers a complete line of tube end-forming equipment. The X-TN tube notch machine is designed for notching and slotting tubular components. The tooling is quick change design and is available in single or double notch design.

MACHINE DESIGN

- Notch cup designed for both standard and new XL (Extended Life) tooling
- 3.250" OD (82.0 mm) standard tube capacity
- .080 wall thickness capacity (2.0 mm)
- Large bore cylinder for increased cutting forces
- Customer specified paint color

CONTROLS

- New Allen-Bradley Micro830 Controller uses free downloadable software
- Foot pedal operation control is standard
- Adjustable cutting speed

PNEUMATICS

- Built in air tank
- 60-140 PSI air supply
- Filter-regulator with E-Stop relief standard

MAINTENANCE

- Removable side panels for easy access to controls
- Oil impregnated wear plates
- New design minimizes wear on pivot points
